

MONTHLY NEWSLETTER - JULY 2026
DIGITAL TRUST PULSE

Welcome to the July edition of *Digital Trust Pulse*.

Discover the new **ebsi.eu** website and revamped **Developer Hub**, explore our latest article on **trusted issuer ecosystems**, and catch up on recent developments and events across Europe's digital trust ecosystem.

EUROPEUM & EBSI UPDATES

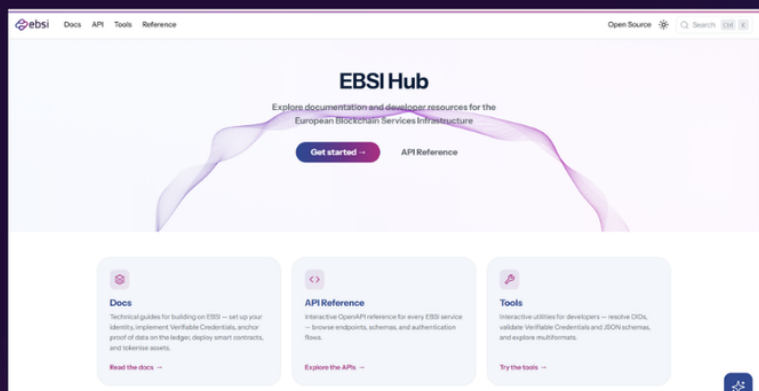

Discover the new ebsi.eu

Explore the new **EBSI website** to understand what EBSI does, where it can be used and how to engage with the ecosystem.

Browse **sector-focused** pages, discover **projects** already using EBSI and **submit an idea for a new project**.

More pages on EBSI services and use cases will be added over the coming months.

IN FOCUS

Ecosystem of trusted issuers:
How trust chains support digital credential verification

How EBSI enables independent verification of digital credential issuers

Learn how verifiers can confirm whether an organisation was authorised to issue a digital credential. Our latest explainer shows how EBSI's issuer trust model uses shared registries and accreditation chains to make that authority independently verifiable.

EU NEWS

[EU Policy](#)

The European Business Wallet file is moving. Following the Council's negotiating position adopted on 9 June, the European Committee of the Regions (CoR) adopted its opinion on 1 July, calling for wallets that are user-friendly and affordable for SMEs. A final agreement is expected by end-2026.

EVENTS

INATBA 7th Anniversary

Europeum CEO Xavier Juredieu joined INATBA's 7th Anniversary event in Brussels, which also marked the **official launch of DEUSS**, the Decentralised EU Securities Service. The discussion highlighted how **sovereign, interoperable infrastructure** depends on **cooperation between Member States, EU institutions and industry** to deliver real public value.
